UNIVERSITY OF TEXAS BULLETINS FOR 1926

List With Index

PUBLISHED BY THE UNIVERSITY FOUR TIMES A MONTH, AND ENTERED AS
SECOND-CLASS MATTER AT THE POSTOFFICE AT AUSTIN, TEXAS,
UNDER THE ACT OF AUGUST 24, 1912

The benefits of education and of useful knowledge, generally diffused through a community, are essential to the preservation of a free government.

Sam Houston

Cultivated mind is the guardian genius of democracy. . . . It is the only dictator that freemen acknowledge and the only security that freemen desire.

Mirabeau B. Lamar

EXPLANATION

The University bulletins are so numbered that the first two digits of the number show the year of the issue, the last two the position in the yearly series. For example, 2601 is the first bulletin of the year 1926. These comprise the official publications of the University, publications on humanistic and scientific subjects, bulletins prepared by the Division of Extension and by the Bureau of Economic Geology, and other bulletins of general educational interest.

Unless its number is preceded by a dagger in this list, any bulletin will be sent to a citizen of Texas free of charge. A nominal charge is made for all bulletins sent out of the State except catalogues, etc., unless sent to an institution on the exchange list of the University of Texas. Money for these bulletins must be sent with the order, as it has been found impracticable to send bulletins on account.

The omission of a number from its place in the consecutive order indicates that the number has not been used. The following serial numbers have not been used for 1926:

2601	2615	2628	2633
2611	2620	2631	2636
2613	2626	2632	2646
2614			

All communications about these bulletins should be addressed to University Publications, the University of Texas, Austin.

The sale price listed is only for orders from without the State of Texas unless the bulletin number is preceded by a dagger (†), in which case the price is charged within the State as well as without.
